DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/08/06 has been entered.

Allowable Subject Matter

Claims 11-20 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or fairly suggest:

- An electroluminescent device comprising a second protection layer of a single layer printed material covering a noise-reducing electrode which is formed on a first protection layer, wherein the first protection layer covers the top and side surfaces of the insulation layer and luminescent layer, in combination with the 18-20 are allowable for the same reasons since they are dependent on claims 11 and 17).

It is noted that JP 11-273872 teaches an EL device wherein the second protection layer (2b) covers the sides of the insulation layer (4) and luminescent layer (5) so as to prevent penetration of moisture during use of the device. However, the second protection layer (2b) is formed after the noise-reducing electrode (8a) is formed on the EL device; and as stated in the Applicant's Remarks section, (see pages 5-7 of the Amendment filed, 5/08/06) since the first protection layer (7) does not prevent penetration of moisture on the sides of the insulation layer (4) and the luminescent layer (5), the EL device can become compromised during the formation of the noise reduction electrode (also see Exhibit A, filed by Applicant on 4/06/06).

Art Unit: 2879

(4) and the luminescent layer (5), the EL device can become compromised during the formation of the noise electrode (also see Exhibit A, filed by Applicant on 4/06/06).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
